**INTERNATIONAL CONFERENCE ON
INTERDISCIPLINARY INTERACTION ON NON-COMMUNICABLE DISEASES
(NCD-2017)**

Dear Sir/Madam,

We take immense pleasure in announcing the an International Conference on "Interdisciplinary Interaction on Non-Communicable Diseases", which will be held during September 22 - 24, 2017 at the Department of Biochemistry and Biotechnology, Annamalai University, Tamil Nadu, India. The key feature of this International conference is to discuss and explore the preventive and novel therapeutic strategies to combat non- communicable diseases including diabetes mellitus, cancer, cardiovascular diseases and neurodegenerative diseases by active contribution of distinguished Academicians, Scientists, Clinicians and Research scholars. We assure, this International conference will serve as a wonderful platform to bring all the stakeholders together to talk about emerging trends and future prospects in the prevention and treatment of non-communicable diseases.

The symposium mainly focus on

- Recent trends in non-communicable diseases (diabetes mellitus/cancer/cardiovascular diseases/neurodegenerative diseases)
- Biochemical, histological and molecular approaches towards non-communicable diseases (diabetes mellitus/cancer/cardiovascular diseases/neurodegenerative diseases)
- Effect of medicinal plants, their bioactive constituents, and synthetic entities in the prevention of non-communicable diseases (diabetes mellitus/cancer/cardiovascular diseases /neurodegenerative diseases)
- Role of reactive oxygen species and enzymatic and non-enzymatic antioxidants on non-communicable diseases (diabetes mellitus/cancer/cardiovascular diseases /neurodegenerative diseases)

The organizing committee is immensely pleased to invite you to participate and deliver a talk on your recent scientific achievements and contribution in the field of non-communicable diseases (diabetes mellitus/cancer/cardiovascular diseases/neurodegenerative diseases). Also, the organising committee will be grateful if you could kindly forward and share this to your friends and colleagues and invite them to take part in the conference.

We will be extremely happy if you could accept our invitation and grace the conference by your presence which will motivate the young budding scientists, scholars and students. We assure that this International Conference would be a fantastic and memorable event. Once again we invite you to the temple city to deliver your valuable address at the International Conference on "Interdisciplinary interaction on Non-Communicable Diseases".

Your extensive support and keen interest will definitely make this conference, an event to cherish.

Thank you,

With warm regards,

Dr. S. MANOHARAN
