Faculty of Marine Sciences
Centre of Advanced Study in Marine Biology
CASMBRP ENVIS Centre

Sponsored by
Ministry of Environment, Forest and Climate Change, New Delhi

Green Skill Development Programme (GSDP)

Certificate course on
“Para-Taxonomy (including Peoples Biodiversity Register)”

with special focus on Marine Biodiversity

26th November, 2018 - 26th February, 2019

Demand of the Course/Employment Opportunity

- There is an urgent need to create manpower especially for the conservation and management of marine biodiversity in Indian coastal states. In this regard, training on “Para-taxonomy (including Peoples Biodiversity Register)” is required to understand the status of marine species in the context of their conservation as several species are unknowingly fast disappearing. This training will also address endangered, commercially important, invasive and IUCN categorized species.
- Moreover there is a growing demand for field and lab oriented technicians especially for the identification and preservation of marine flora and fauna. Job opportunities are promising in this field including aquaculture and tourism in addition to NGOs, research institution etc.

- No. of participants: 20
- Last date for the submission of application with your brief biodata: 19.11.2018 (by mail)
- Eligibility : 12th passed / Undergraduate / Postgraduates
- No Registration Fee
- Selected candidates will be provided with food and accommodation

Address for submission of application

Prof. Dr. M. Srinivasan
