**REGULATIONS**

**For M.B.A. (Dual Specialisation), M.B.A. (Human Resource Management), M.B.A. (Financial Management), M.B.A. (Marketing Management), M.B.A. (International Business Management), M.B.A. (Hospitality Management).**

**MASTER'S PROGRAMME**

**A Master's Programme consists of a number of courses. Master's Programme consists of a set of compulsory courses (Core Courses) and some optional courses (specialisation and elective courses).**

**Core courses are basic courses required for each programme. The number and distribution of credits for core courses will be decided by the respective faculties.**

**Elective courses will be suggested by the respective departments. Elective courses may be distributed in all four semesters.**

**A course is divided into FIVE units to enable the students to achieve modular and progressive learning.**

**SEMESTERS**

**An academic year is divided into two semesters, odd semester and even semester. The normal semester periods are:**

**Odd Semester: July to November (90 Working days)**

**Even Semester: December to April (90 Working days)**

**CREDITS**

**The term credit is used to describe the quantum of syllabus for various programmes in terms of weightage and hours of study. It indicates differential weightage given according to the contents and duration of the courses in the curriculum design.**

**The minimum credit requirement for a two year Master's Programme shall be 90.**

**COURSES**

**Each course may consist of lectures/ cases discussion / tutorials/ laboratory work / seminars/ assignment / project work/ practical training/ report/ viva voce etc.**

**COURSE WEIGHT**

**Core and Elective courses may carry different weights. For example, a course carrying one credit for lectures will have instruction of one period per week during the semester, if three hours of lecture is necessary in each week for that course, the 2 credits will be the weightage.**

**Thus normally, in each of the courses, credits will be assigned on the basis of the lectures / tutorials / laboratory work / field and industrial visits and other forms of learning in a 15 week schedule.**

**One credit for each lecture period per week**

**One credit for each tutorial per week**

**One credit for every three periods of laboratory or practical work per week**

**One credit for 3 contact hours of project work in a week**

**One credit for every two period seminar**

**Two credits for project work / dissertation.**

**Two credits for tour and industrial visits**

#### **ELIGIBILITY FOR ADMISSION**

**A candidate who has passed the Bachelor's Degree in any subject including the Professional Courses of this University or an examination of any other University accepted by the Syndicate as equivalent thereto.**

#### **GRADING SYSTEM**

**The term grading system indicates a 10 point scale of evaluation of the performance of students in terms of marks, grade points, letter grade and class.**

#### **DURATION**

**The duration for completion of a two year Master's Programme in any subject is of four semesters.**

#### **STRUCTURE OF THE PROGRAMME**

**The Master's Programme consists of:**

- **Core courses which are compulsory for all the students**
- **Specialisation or Elective courses which students can choose amongst from courses approved within the department or in other departments of the faculty and other faculties.**
- **The CBCS elective subjects will be allotted after counseling by a committee of the Head of the Departments under the chairmanship of the Dean.**
- **Dissertation / Project Work / Practical Training / Field work, which can be done in an organization (Government, Industry, Firm, Public Enterprise etc.) approved by the concerned department.**
- **Student can take any two specializations (Dual Specialization) and should continue with the same from 2<sup>nd</sup> Semester to 4<sup>th</sup> Semester.**

#### **ATTENDANCE**

**Every teaching faculty handling a course shall be responsible for the maintenance of attendance register for candidates who have registered for the course.**

**The instructor of the course must intimate the Head of the Department at least Seven Calendar days before the last instruction day in the semester about the particulars of all students who have secured an attendance of less than 80%.**

**A candidate who has attendance less than 80% shall not be permitted to sit for the End-Semester examination in the course in which the short fall exists. Based on the percentage of attendance reported for every student, internal marks is awarded for each course as given below.**

Attendance %	Marks
90 and more	5
80-89	4
70-79	3

## EXAMINATION

There will be two sessional assessments and one End-Semester examination during each semester.

Sessional Test-I will be held during sixth week for the syllabi covered till then.

Sessional Test-I will be combination of a variety of tools such as class test, assignment, and paper presentation that would be suitable to the course. This requires an element of openness. The students are to be informed in advance about the nature of assessment and the procedures. However the tests are compulsory. Test I may be for one hour duration. The pattern of question paper will be decided by the respective Faculty. Sessional Test-I will carry 20% of marks out of the session marks 25.

Sessional Test-II will be held during eleventh week for the syllabi covered between seventh and eleventh weeks.

Sessional Test-II will be conducted with a variety of assessment tools. It will also have an element of openness. The students are to be informed in advance about the nature of assessment and the procedures. However the tests are compulsory. Test II may be for two hour duration. The pattern of question paper will be decided by the respective faculty. Sessional Test II carries 20% of marks out of the session marks 25.

There will be one end semester examination of 3 hours duration in each course.

The End Semester Examination will cover full syllabus of the course for 75% of marks.

## EVALUATION

Evaluation will be done on a continuous basis. Evaluation may be by objective type questions, Quiz, Short Answers, Essays or a combination of these, but at the End Semester Examination, it has to be a written examination.

The performance of a student in each course is evaluated in terms of Percentage of marks (PM) with a provision for conversion to Grade Point (GP). The sum total performance in each semester will be rated by GPA while the continuous performance from the 2<sup>nd</sup> Semester onwards will be marked by (OGPA).

## MARKS AND GRADING

A Student cannot repeat the assessment of Sessional Test I and Sessional Test II. However, if for any compulsive reason, the students could not attend the test, the prerogative of arranging a special test lies with the teacher in consultation with the Head of the Departments.

A minimum of 50% marks in each course is prescribed for a pass. A student has to secure 50% minimum in the End Semester Examination.

If a candidate who has not secured a minimum of 50% of marks in a course shall be deemed to have failed in that course.

The Student can repeat the End Semester Examination when it is offered next in the subsequent odd / even semester till the regulations are in force.

A candidate who has secured a minimum of 50 marks in all the courses prescribed in the programme and earned a minimum of 90 credits will be considered to have passed the Master's Programme.

#### GRADING

A ten point rating scale is used for the evaluation of the performance of the student to provide letter grade for each course and overall grade for the Master's Programme.

Marks	Grade Point	Letter Grade	Class
90 and more	10	S	Exemplary
85-89	9.0	D	Distinction
80-84	8.5	D	Distinction
75-79	8.0	D	Distinction
70-74	7.5	A	First Class
65-69	7.0	A	First Class
60-64	6.5	A	First Class
55-59	6.0	B	Second Class
50-54	5.5	C	Second Class
49 or Less	-	F	Fail

The Successful candidates are classified as follows.

**First Class-60 % Marks and above in overall percentage of Marks (OPM).**

**Second Class-50-59% Marks in overall percentage of marks.**

Candidates who obtain 75% and above but below 90% of marks (OPM) shall be deemed to have passed the examination in Distinction provided he/she passes all the courses prescribed for the programme at the first appearance.

Candidates who obtain 90% and above (OPM) shall be deemed to have passed the examination in FIRST CLASS Exemplary provided he/she passes all the courses prescribed for the programme at first appearance.

For the Internal Assessment Evaluation, the break up marks shall be as follows:

Test	—	10 Marks
Assignment/ Seminar/ Case Study/ Role Play/ Viva Voce / Short Answers	—	10 Marks
Attendance	—	5 Marks
Total	—	25 Marks
The award of marks shall be as below:		
Faculty of Arts, Indian Language and Education		3700 Marks

## **COURSE-WISE LETTER GRADES**

The percentage of marks obtained by a candidate in a course will be indicated in a letter grade.

A student is considered to have completed a course successfully and earned the credits if he/she secures an overall letter grade other than F. A letter grade F in any course implies a failure in that course. A course successfully completed cannot be repeated for the purpose of improving the Grade Point.

The F grade once awarded stays in the grade of the student and is not deleted even when he/she completes the course successfully later. The Grade acquired later by the student will be indicated in the grade sheet of the odd/even semester in which the candidate has appeared for clearance of the arrears.

A student who secures F grade in any course which is listed as a core course has to repeat it compulsorily when the course is offered next. If it is an elective course, the student has the option to repeat it when it is offered next or to choose a new elective if he/she so desires in order to get a successful grade.

When new elective is chosen in the place of failed elective, the failed elective will be indicated as dropped in the subsequent grade card.

If a student secures F grade in the Project Work/Field Work/Practical Work/Dissertation, either he/she shall improve it and resubmit it if it involves only rewriting incorporating the clarifications of the evaluators or he/she can re-register and carry out the same in the subsequent semesters for evaluation.

## **GENERAL**

In-plant training is being offered for elective students in organizations. The students get the opportunity to interact with the officials in the company environment in their chosen field.

Major project in a company for 45 days by students is compulsory. The project develops research bent of mind among them. The students can select any topic in functional areas. The faculty acts as internal guide. Computer Laboratory consists more than 100 computers. Each student is served with one PC to enable research and academic activities.

Department Library is equipped with 5000 volumes and a number of journals and back volumes. Laboratory and Computer wing function from 10.00 AM to 8.00 PM.

### MBAC 204 : PRODUCTION AND MATERIALS MANAGEMENT

#### Objective

The key objective of this course is to acquaint students with the needed skills and knowledge for making effective and efficient purchase, Decision storage and flow of materials in manufacturing and service organizations; Cost-reduction techniques in Pre-Purchase and Post-Purchase systems.

#### Teaching Methods

Lecture and Case Study.

#### Unit-I : Production Function

Introduction – Production functions – Design of production system – Types of production – Types of process – Productivity – Ergonomics.

Plant Location – Factors influencing plant location – Multi Plant location – Foreign Location – Relocation – Plant location trends.

#### Unit-II : Plant Layout and Maintenance

Plant Layout – Types of layouts – Process layout – Product layout – Layout of service facilities – Office layout – Use of service facilities – Use of drawings, templates and models in layout physical facilities.

**Maintenance – Objective of maintenance – Elements of maintenance – Types of maintenance – Breakdown time – Distribution time – Preventive maintenance Vs Breakdown maintenance – Optimum crew size – Maintenance records.**

**Unit–III : Production Planning and Control**

**Production Planning and Control – Routing – scheduling – Despatching – Expediting – GANTT charts – Work study and Motion study and Method study analysis – Use of Computers in PPC – Design and Implementation of PPC System.**

**Unit–IV : Materials Management and Materials Management Information System**

**Materials Management – Objective of Materials management – Materials forecasting and planning – Inventory control – Fixed order size, P&Q Inventory System – Deterministic probabilistic models, Static inventory models – Spare parts management – Materials requirement planning – Aggregate inventory management – Implementation aspects of inventory systems – Materials accounting and budgeting evaluation of materials management performance. Information systems and computers in materials management.**

**Unit–V : Store and Purchase Function**

**Standardization, simplification, codification, stores layout, storage systems and equipment, stores preservation, stores procedures and Automation of warehouses – Materials handling equipments – Stores Account – Price – Cost analysis and Negotiation forward buying – Speculation and Commodity markets – Capital equipment buying, imports and customs – Clearance – Purchasing research.**

**Purchasing function – Purchasing policies and procedures, legal aspects of purchasing, tax considerations in purchasing, selections and sources of supply and make or buy decisions – Vendor evaluation and rating – vendor development.**

## MBAC 206 : DECISION SUPPORT SYSTEM AND MANAGEMENT INFORMATION SYSTEM

### Objective

This course is designed to provide business students a real-world understanding of information systems and Decision Support System application in business. The course imparts a firm foundation and background needed in the field of information systems, based on which the students can study current Information System technologies. Also, the course gives students the right balance of conceptual background, technical information and real-world applications.

### Unit-I : Basic MIS and DSS concepts

**Management Information System: Definition; Concept; Frame Work. Elements of MIS: MIS Structure; Functional Components; Information Component; Human Component; System Component. Decision Support Systems: Definition; Types of problems-structured-semi-structured and unstructured problems; Sub Systems of DSS: Dialogue Management; Model Management and Data Management Sub systems.**

### Unit-II : Design and development of MIS and DSS

**Designing Information System: System Development Life cycle (SDLC) approach: Requirement Analysis; Information gathering; Design and developing the IS; Implementation of IS in organizational settings. Rapid application Development: Application Systems; ERP applications. DSS development process-DSS evolution-GDSS application and design. Mathematical models in DSS.**

### Unit-III : Infrastructure for MIS and DSS

**Hardware requirement for MIS and DSS: Communication Processors and Channels; Network Infrastructure for MIS and DSS- Different types of Computer networks- 4GL Technologies - Expert Systems: Artificial Intelligence; GIS applications in Business- Cloud Computing.**

### Unit-IV : MIS in Functional Components and System Security

**Information systems applications on Functional domains of Business: Marketing Information system-HR Information System-Financial Information System-Accounting Information System-Production Information System - Information System applications in retailing- Information System applications in Supply Chain Management. Document Management Systems: Record Keeping systems - Information system Security and Control – Different layers of protection for IS application - Privacy and freedom of information system end users-Information privacy norms-Fair use doctrine.**

### Unit-V : IT infrastructure Management

**Organising MIS function in the enterprise- structure of MIS team in the organization-Different strategies of IT infrastructure management; In-house development of MIS-Outsourcing MIS function; Hardware and Software updating-End user training and development-End user training need identification.**

**Types of accounts, Golden Rules of Accounting, Accounting Principles, Concepts and Conventions, Double Entry System of Book Keeping, Mode of Accounting, Financial Statements, Final Accounts – Preparation of Trial balance, Profit and Loss Account, Balance sheet.**

**Unit-II : Fundamentals of Tally.ERP 9**

- **Getting Functional with tally.ERP 9**
- **Creation/ setting up of Company**
- **Features**
- **Configurations**
- **Setting up Account Heads.**

**Unit-III : Inventory in Tally.ERP 9**

- **Order Processing**
- **Reorder Levels**
- **Tracking Numbers**
- **Batch wise Details**
- **Additional Cost Details**
- **Bill of Materials**
- **Price List.**

**Unit-IV : Value Added Tax (VAT)**

- **Configuring VAT –Documents and Records**
- **Creating masters**
- **Entering Transactions**
- **Accounting for Return of Goods**
- **Rate Difference in Purchase / sales**
- **Accounting for Interstate transactions**
- **Exempt transactions under VAT**
- **VAT Reports**

**MBAD 207/208 (4) PRODUCTION PLANNING AND CONTROL****Objective**

**To develop a broad conceptual framework based on the research which has been done in the recent past and to bridge the gap between the theoretical solutions on one hand and the real world problems on the other in production planning and control.**

**Teaching Methods**

**Lecture and Case Study and Computer Aided Teaching.**

**Unit-I : Introduction to PPC**

**Concepts & functions of PPC for various types of production system – Inventory system – Integrated planning and physical distribution – Operations performance evaluation and reporting, design and implementation of PPC system.**

**Unit-II : Forecasting and Planning**

**Demand forecasting – Aggregate planning and master scheduling models – Planning and Scheduling for high volume standardised operations, Basic concepts in flow line design – Material requirement planning.**

**Unit-III : Scheduling and Safety Management**

**Planning and scheduling for intermittent systems, criteria for effectiveness in scheduling; flow shop scheduling decision rule, applications of computer – Statistical process control – Safety management.**

**Unit-IV : Group Technology**

**Group technology and cell system of production, Line of balance techniques, Project monitoring – Forecasting for inventory and Production control – Job shop planning.**

**Unit-V : Maintenance**

**Maintenance – Objective of maintenance – Elements of maintenance – Types of maintenance – Breakdown time – Distribution time – Preventive maintenance Vs Breakdown maintenance – Optimum crew size – Maintenance records. Maintenance system, Maintenance planning and control, planned maintenance system: Material handling – Principles – Equipments.**

## MBAD 207/208 (5) SYSTEM ANALYSIS AND SOFTWARE DEVELOPMENT

### Objective

The Objective of this course is to acquaint the students on systems concepts and its applications in designing computerized reports for an organization.

### Teaching Methods

Case Analysis, Lecture System Development Projects and Computer lab and Computer Aided Teaching.

### Unit-I : Basic Concepts of Systems

Systems Definitions – Systems classifications – open, closed: Deterministic and Probabilistic system: Stable system – Business organization as system – organization structure – Organization Objectives, process and information needs – System – Applications and Development Relationship Process.

### Unit-II : Information System Life Cycle

Information System life cycle – System development stages – System Development Life Cycle – Model – JAD – Phase – User role in systems development process – Establishing a portfolio of information system application – Importance of Auditability, Maintainability and Recoverability in information systems.

### Unit-III : Systems Planning

Systems Planning – Approaches to systems development – feasibility as event – Technological, Economic and Social. System investigation: Objectives of investigation, Management decision making; Procedure and data – Method of investigation – Recording of Investigation.

### Unit-IV : Systems Analysis and Design

Systems analysis – Objectives, Nature and Importance of Analysis – Role and Requirement – Tools of analysis – Steps in analysis – Analysis of Organization structure and procedures – Design Objective – Design Alternatives – Output and Input Design – Specifications – Design Tools – Case Tools: Design forms, codes, terminal dialogues and user procedure – Data analysis processing requirements– Clerical and Computer – Selection of alternative.

### Unit-V : System Implementation Concepts

Systems implementation – Planning and Control – Unit testing and combined module testing – Testing manual procedures – File conversion and set up – Cut over and parallel testing – Training of users and Operating personnel – Documentation of the system – Maintenance and Review of system.

#### **MBAD 207/208 (6) EXPORT-IMPORT PROCEDURES, DOCUMENTATION AND LOGISTICS**

##### **Objective**

**The aim of this course is to acquaint students with knowledge of export-import procedures, documentation and to expose knowledge of world logistics.**

##### **Teaching Methods**

**Lecture, Group Discussion and Case Study and Field Trips.**

**Unit-I : Export Offer and Documents, Export Contract and Negotiation with Commercial Banks for Availing Export Finance and Methods of Export Finance from Commercial Banks**

**Export Order – Processing of Export Order – EXIM Documentation – International Business Contracts – Dispute – Methods of Financing Exports – Letter of Credit – Other Methods of Payment for Export – Packing and Post Shipment Finance – Other Long-term Methods of Payment – Discrepancies in Export Documents – Negotiations of Documents with Commercial Banks – Uniform custom and practices (UCP).**

**Unit-II : Insurance, Foreign Exchange Risk and Forwarding Agents**

**Business Risk – Cargo and Foreign Exchange Risk, Foreign Exchange – Cargo Insurance, ECGC – Foreign Exchange Regulations – Quality Control, Inspection and Procedures and Role of Clearing and Forwarding Agents.**

**Unit-III : Cargo Shipment, Custom Clearance, Export - Import Licences and Other Export Incentives**

**Shipment of Export Cargo, Excise and customs clearance of cargo, Custom Clearance of Import Cargo, Procedures for availing export incentives – Duty draw backs - Export licence – Import Licence and other export incentives from government of India and from Institutions.**

**Unit-IV : Shipping and Containerization**

**World Shipping, Structure, Liners, and Tramps, Conference System and Freight – Containerization – Container Corporation of India - Conferences on Sea Transport.**

**Unit-V : Air / Sea Transport and Freight**

**Indian Shipping, Concept of Dry Port, Air Transport, Freight rate structure - Export Procedures in Airport and Sea Port – Tariff and Non-tariff for exporters.**

## MBAC 209 : LAB FOR STATISTICAL PACKAGES ON BUSINESS DECISION

### Objective

The objective of the Lab is to provide basic knowledge and experience in using statistical packages to make managerial decisions. The lab extends hand on experience in SPSS to carry out statistical analysis.

### Unit-I : Introduction – Basic Research Process

Research methods – Data – Evaluation of measuring Instrument – Scale of measurement – Types of Questions – Sampling methods – Reliability and validity of Questionnaire – Filed Procedures.

### Unit-II : Data Editor

Processing of Data – Coding – Variables and variables labels – Rules in Creating Variables Name – Variable Format – Value Labels – Recode Command – Missing Data – Creating and Editing a Data File.

### Unit-III : Hypothesis Testing and Probability Values

Approaches to analyzes – Types of Analysis – Hypothesis Formulation – Hypothesis Testing – Checking of Data – Purification – Modification – Dependent and Independent Variable.

### Unit-IV : Simple Tabulation and Cross Tabulation

Simple Tabulation – Frequencies – Percentage – Charts – Simple Tabulation for ranking type questions – Cross Tabulation – Calculating percentage in a cross tabulation – Cross tabulation of more than two variables – chi-square test for cross tabulation – Measures of the strength of association between variables.

### Unit-V : ANOVA and Design of Experiments

Application – Methods – Variables – Completely randomized design in a one-way ANOVA – Factorial Design with two or more factors – Pair wise test – Independent t-test – Correlation – Regression – Interpretation of Result.

## MBAC 210 : PROJECT AND VIVA-VOCE (EXPOSURE TO SMALL AND MEDIUM ENTERPRISES)

### Objective

Students should make use of first semester holidays and other holidays to learn from small and medium business units and establishments.

Student should get versatile exposure in all specialization areas.

### Guidelines

- 1) The duration of the program is 40 hours.
- 2) Though the students attend eight hours shift in the small business will be taken only three hours credit per day (So that students can have the touch with real business for longer time).
- 3) Students should learn in a Tiny/Village/Rural/ Industry (Eg. Poultry, Pottery, Nursery, Artisan, Agarbathi, Plantation, Fish processing, Bags, Micro finance, Pre-casting, NGO, Small and Medium Shops and the like).
- 4) Students can submit the report about one or more firms in each report.
- 5) Students should get the attendance from the firm(s) and attach the same in the report.
- 6) Students can choose a guide of their choice from regular department faculty.
- 7) Faculties have ceiling of equal distribution of wards which will be done by the concern committee. Each student must perform their Main Project, Case study base report-1, Case study base report-2. If any violation on this then the project will not be considered for evaluation during the period, the students must complete their work in the next period.
- 8) Students should submit a case study based projects/ report in the end of the said periods (First case study base report should submit at the end of second semester and the second report should submit at the end of fourth semester. The students should do the work under the guidance of one faculty member of MBA department.
- 9) These case study reports can be submitted by the students with the minimum of 100 pages of typed script and soft binding each one.
- 10) Each report should be evaluated under the central evaluation center and not by their guide.
- 11) Each case study based report can be awarded 100 marks inclusive of 25 marks as internal (Awarded by guide).

**SECOND YEAR : THIRD SEMESTER  
MBAC 301 : OPERATIONS RESEARCH**

**Objective**

The Objective of this course is to develop an understanding of basic management science techniques and their role in managerial decision making.

**Teaching Methods**

Lecture.

**Unit-I : Introduction**

Evolution of Operations Research – Models – Formulation of Models – Using models for problem solving – Techniques of Operations Research – Limitations of Operations Research.

**Unit-II : Linear Programming**

Requirements of L.P. Applications – Graphical methods and Simplex method of solving optimization problems – Duality – Technical issues in Simplex method.

**Special Purpose Algorithms**

Transportation model – Balanced and Unbalanced problems – North-West Corner rule – Least Cost Method – Vogels Approximation method – MODI method – Assignment model – Hungarian model – Travelling Salesman Problem.

**Unit-III : Inventory Models**

Inventory costs – Cost of average inventory – Optimum Number of orders per year – Optimum days supply per order – Optimum rupee value per order – Assumptions – Applications of EOQ in Production process – Reorder point – Lead Time – Safety Stock.

Waiting Line Models – Definitions of waiting lines – Single channel Queue models (Poisson Distributed arrivals and Exponentially Distributed Service Time) – Multiple channel Queue models (Poisson Distributed Arrivals and exponentially distributed Service Times) – Simulation of Queuing System.

**Unit-IV : Game Theory**

Two person Zero sum Games – Pure Strategy – Mixed Strategy – Dominance – Mix N Games – Graphical solution.

**Network Models**

PERT – CPM – PERT cost – Resource allocation – Float and slack – Other network models.

**Unit-V : Replacement Models**

Capital equipment replacement – Replacement of terms that fail completely – Individual Vs Group replacement.

**Sequencing**

Problems with 'n' jobs and 2 machines problems with 'n' jobs and 3 machines.

### **MBAC 302 : CASE STUDY AND ANALYSIS**

#### **Objective**

The Objective of this course includes developing an appreciation of different cases and analysis in all possible directions. This will give exposure about the industry among the students and build up the experience of knowing the business organizations in depth.

#### **Teaching Methods**

Lecture/Discussion, Executive and Invited Lectures, Group Discussion, Seminar/Presentation and Video Cases.

#### **Unit-I : Case Study Fundamentals**

Case Based Learning – Role – Expectations – Classroom Discussions – Participation – Fundamentals – Arguments – Types of Cases – Methods – Groups – Preparations – Techniques – Problem Identification – Case Study Data Banks.

#### **Unit-II : Case Development and Analysis Techniques**

Developing Cases – Lead Generation – Documentation – Approval – Finalization – Key Process Areas – Clearance – Class room Preparation – Lead Questions – Approaches on Problem Identification, Solving, Approach – Questions – Assumptions – Concluding the Case.

#### **Unit-III : Case Study Steps**

Titling – Introduction – Synopsis – Case Premisses – Problem Identification – Central Issue – Analysis – Alternatives/Strategies Development – Feasibility Study (SWOT) – Selection of Best Alternatives/Strategy – Action Planning – Recommendation/Suggestion – Predicted Outcome – Conclusion.

#### **Unit-IV: Cases in Management**

Cases related to Finance – Marketing – Human Resource – Organization Behaviour – Production – Materials – International Business – Business Policy – Systems – Entrepreneurship.

#### **Unit-V : Contemporary Cases**

Current Cases of Indian Business and Industry – International Business and MNC.

### MBAD 307/308 (1) INVESTMENT SECURITY AND PORTFOLIO MANAGEMENT

#### Objective

The Objective of this course is to impose knowledge to students regarding the theory and practice of security analysis and making investment decisions.

#### Teaching Methods

Lecture, Case Study and Seminar Presentation.

#### Unit-I : Nature, Scope of Investment Management and Listing of Securities

Investments – Concept and objectives – Nature of Investment – Scope for Investment – Types of Investors – The Investment process – Stages of Investment – Speculation – Types of Speculators – Distinction between Investment and Speculation – Gambling – Features of Gambling - Listing of Securities: Introduction – Advantages of Listing – Legal Requirements – Key provisions in listing agreement.

Brokerage Business: Introduction – Functions of a brokerage firm – Functional specialisation of members – Selecting a broker – Execution of orders – Types of transactions in a Stock Exchange – Mechanics of Share Trading – Carry forward Facility – Badla Transactions – Revised Carry Forward System ( RCFS ) – Brokerage Charges.

#### Unit-II : Common Stock Analysis

Fundamental Analysis: Economic Analysis – Stock market and the economy – Business cycle and the stock market.

Industry Analysis: Classification of industries – Industry life cycle – Methods of analysis – Key characteristics of an industry analysis.

Company Analysis: Introduction – Internal information – External information – General aspects.

Financial Analysis: Introduction – Structure of a Balance sheet – Financial Ratios and their significance – Valuation of shares. (Simple Problems).

**Unit–III : Technical Analysis and the Efficient Market Theory**

**Technical Analysis: Introduction – Tools for technical analysis – The Dow Theory – Advantages and limitations of technical analysis.**

**Charting Techniques: Introduction – Meaning of Charts – Methods of preparing charts – Uses and limitations “P” and “F” (charts points and figure) – Pattern of charts and their uses.**

**Dollar cost averaging: Introduction – Meaning of DCA – Guidelines for using DCA – Modified DCA plans.**

**Unit–IV : Portfolio Management**

**Introduction – Meanings – Objectives of portfolio – Traditional portfolio analysis – Diversification of portfolio – Portfolio selection – Portfolio revision Techniques – Advantages and Limitations.**

**Capital Asset Pricing Model – Security Market Line – Capital Market Line – SML Versus CML. (Simple problems)**

**Unit–V : Financial Derivatives Markets**

**Warrants: Definition – Considerations for shares issued through warrants – Gearing effect – Valuing warrants – Lapse of warrants – Futures markets – Hedging using index futures – futures versus options – synthetic futures – futures versus forward markets – strategies for futures markets.**

**MBAC309: PROJECT AND VIVA- VOCE (INDUSTRIAL VISITS AND SUBJECTS)****Project Training**

**Summer project is an on-the-job training that inculcates practical knowledge and improves performance by giving an insight into business realities. As a part of the curriculum, the project is intended to input practical and conceptual knowledge to the students which is to be carried out for 45 days during May–June.**

**A committee is constituted for the overall Co-ordination of the students. The students undertake projects in various organizations all over the country. Faculty members also render their help in finding project placements. Students will be allotted faculty guides and they are advised to undertake projects based on their individual area of specialization. The topics are selected by consulting with their project guides and company guides.**

MBA project will have 75 marks and viva will have 25 marks. It is resolved to abolish internal assessment mark for project work. The project dissertation will be evaluated for 75 marks (double valuation) and 38 marks is fixed as the minimum requirement for passing the project. If less than 38 marks scored by the candidate, he or she has to redo the project. The viva is for 25 marks and the minimum requirement is 12 marks. If a candidate has secured more than 12 and failed in the project, he has to once again carry over the project and reappear for the viva.

#### **Project Related Activities**

Project discussions for students with their guides have to be made once in a week.

Students can make use of the computer lab facilities for execution of their project work and for preparation of their report.

Frequent workshops and review meetings will be conducted with trainers and experts of various disciplines.

A formal interim – project presentation will be held before their juniors. This presentation acts as a good ground of experience on the part of the presenters while a good beginning of insight for the juniors.

A mock viva–voce will be held before appearing for their main project viva–voce examination to gain an experience.

Best Project Contest will be conducted every year to provide a platform to exhibit the skills they have acquired during the summer project training.

Students are encouraged to participate in the National Level Project contest held at various institutions.

Students are also encouraged to work towards publishing a paper along with the help of their faculty guide to add a real value to their project work.

**MBAC 409 : COMPREHENSIVE VIVA-VOCE (INDUSTRIAL VISITS AND SUBJECTS)**

**M.B.A. (Human Resource Management)**  
**(Choice Based Credit System)**

**MBA (Human Resource Management) – An Overview**

**Human Resource is the most valuable resource of any organisation. Managing humans is at the heart of almost all the real-life management ‘problems’. What it takes to ‘manage’ humans? Why humans are a ‘resource’ and what makes them special? The purpose of this course is to bring out issues involved in the management of human resources (HRM), both from current theory as well as practice. The course will examine humans at work and discuss various aspects which are basic to human motivation at work and in fulfilling career aspirations within organisations. HRM involves various issues right from selection-placement to performance appraisal, salary-career management, and training, etc. of employees in organisations. The course also endeavours to discuss the basic issues involved in organising of employees as trade union – the origins, comparative institutional context and influence on HRM practices. Finally the course will bring the cutting edge issues with regard to HRM, like flexibility, automation, empowerment, Japanese practices, etc. The stress throughout would be on evolving a perspective for developing humans at work and in formal organisations.**

**This course aims to provide high quality graduate professional education to a cultural diverse body of motivated students and also provide a rich programme of complementary activities which introduce students to the application of theory in actual business situations as well as diverse career opportunities and cross cultural experiences. This course offers each student, the opportunity to learn various management skills and business experience. Students of M.B.A-HRM will gain knowledge about tackling the issues related with human resource management.**

**CAREERS:**

**HR Manager in Corporate Sector**

**The role of a HR manager in the corporate sector is to search, select & recruit suitable and qualified staff for his organization. It is also concerned with the development, motivation & training of the staff in order to maximize their satisfaction & minimize turnover.**

**Increasingly the role of the HRM has future been empowered by their involvement in Strategic issue revolving around organizational change, statutory compliance & industrial matters. Typically a bachelor's degree in Management allows entry into a junior cadre of HRM, or an MBA is usually the norm for entry into mid level/senior position into HR department of large organization.**

**HR Manager - Training & Development**

**There are some companies that specialized in T & D as a business. Their jobs are broadly to "Train the Trainer" or in the other words, train HR managers to in turn, train employees of their organization & equip them with certain skill sets. They often hold workshops on "behavioral skills" etc. They also facilitate highly specialized workshops on "how to price high end derivatives" in which case, they act as a link with specialized trainers. Most training firms employ people who have done their masters with either Management or Psychology or those who have pursued a diploma course in Psychology after their bachelors in the same.**

### HR Manager - Recruitment Consultation

The job market is a buzz right now. MNC's are setting up base in India. Many are shifting their back end operations to Indian Cities and every possible foreign bank is also setting foot here. Poaching is no longer a bad word and is, in fact, synonymous with hiring. Thus recruitment consultation is actually a very lucrative & fruitful field to join at this stage.

There are several recruitment consultants firms in India. In some, business responsibilities are split by industries & in others, they are split by functions. The general requirement to become a recruitment consultant is an MBA with specialization in HR.

### HR Consultant

This is the upcoming field, where in organizations employ the services of HR consultants to either find solutions or help tide over issues relating to people in the organization. For instance, when two companies are merging to form a common entity, they often hire HR consultants to figure out a way to smoothly integrate the people & culture of the organizations. In the case of organizations that need to re-structure, HR consultant decides on those who need to be retained, fired or promoted. In public sector companies when voluntary retirement schemes are announced, HR consultants are hired to make the process smoother.

HR consultants are often employed by organizations for compensation, benefit analysis review. A bachelor's degree in Management or a specialized master's degree in HR would be good entry points at several levels of HR consulting.

### Career Counselling

One of the most prominent facts of career counselling is the one that caters to the youth. This field includes the paid services of private organizations & also schools & colleges that provide career counselling to their students. To be eligible for this field, a PG diploma in counselling is required.

A related field is that of conducting behavioural test, which are carried out in order to analyze personality traits of individuals, through which the type of education & career profile that is best suited to them can be determined. This is a specialized field & requires a degree in clinical psychology. "Several schools & colleges hire counsellors to conduct behavioural test for students who are the verge of choosing a career stream. They conduct behavioural tests which help students ascertain their skills set & the field that would be ideal for them to join. An increasing number of institutions understand the advantage of catching children while they are young to detect any odd behavioural pattern by conducting this test.

### Academics

If a person is interested in academics & is keen to take up HR, then a MBA with a specialization in HR is the best option. This followed by doctorate in the same field would make the candidate eligible to teach HR or OB at any institution.

HR is a fast developing field, which until a few decades ago, was considered the domain of women. However due to the variety of roles available to day & the increasing relevance of this field, finds more & more men & women pursuing HR as a viable career option.

In this course, students will be expected to apply theory and tools of financial management to the formation of business decisions in the global environment. Through the help of this course students can apply key techniques of accounting and financial management.

**CAREERS**

A MBA finance program has numerous job opportunities and is believed to be the most effective tool for enhancing proficiency and market credibility. Most of the MBA finance professionals are recruited by investment banks, security firms, corporate and BPOs. The most widely recognized jobs falling under this category are financial managers, financial analysts, accounting managers, corporate controllers, chief financial officers, cash managers, investment bankers, finance officer, treasurers, management consultants, credit managers, investment sales associates, traders and investment banking associates

**MBA - Finance Careers**

Accounting or financial managers are the people responsible for overseeing and maintaining the financial strategy and history of a company. The accounting manager is focused more on financial reporting, while the financial manager is focused on strategy and money management. Finance has been one of the more popular choices for MBA focus or concentration.

A MBA finance can offer numerous possibilities and can be an effective tool to help with promotions in the professions discussed below. Most prospective jobs for finance MBAs fall within investment banks, corporations, and securities firms. Many finance MBA graduates also follow careers in the consulting industry.

**Financial Managers or Financial Analysts**

Financial analysts and managers use historical (accounting) data in their decision making, however the number one role of the financial manager is to oversee the production of financial analysis and reports to help the company with decision making, business development, strategic planning, and alliance management. Through the use of these reports, the financial analyst helps to shape the company's investment and business growth. Cash management strategies developed and implemented by the financial analyst help the company to grow efficiently and allow for maximum profitability in its investments.

Financial analysts and managers play an important part in mergers and global financing and expansion. Highly specialized knowledge in these areas is an important asset to the financial manager and his or her employer to maximize potential profit and reduce risk. Many companies utilize globally active consulting firms exclusively for these purposes.

### **Cash Managers**

**The Cash Manager is responsible for overseeing and controlling cash flow, both accounts receivable and accounts payable. He or she is also responsible for ensuring that the cash position of the company is sufficient to meet current and forecasted needs, or whether adjustments in investment quantity and type are necessary.**

### **Risk and Insurance Managers**

**Business operation and transactions involve a certain amount of risk. Risk managers and insurance managers work to minimize the amount of loss a company incurs and the amount of risk it is exposed to.**

### **Financial Consultants**

**Financial consultants work to help companies with a wide variety of problems and issues. Everything from profitability improvement to corporate restructuring to financial strategy. The MBA students going into this field should have either an expert understanding of a wide base of knowledge, or be highly skilled in two or more sub groups. The financial consultant will also help companies with cash management and emerging market analysis.**

### **Investment Bankers**

**An investment banker will work together with corporations needing capital to grow and institutions or investors who have money available to invest. An MBA is an enormous asset in this field as the investment banker will be giving investment advice to his or her clients regarding raising capital. Most investment banks have a corporate finance division that assists clients in structuring financial instruments such as stocks or bonds to raise capital.**

### **Investment Banking Associates**

**People graduating with MBA in finance often begin their career as an associate with an investment bank firm or investment firm. This is usually at least one level above the entry-level position as an analyst typically obtained by persons with only an undergraduate degree. Most analysts end up pursuing MBA degree after a couple of years in the industry in order to obtain promotions. Many people in the corporate finance side of investment banking will obtain a CFA (Chartered Financial Analyst) designation as a supplement to their MBA. The Association for Investment Management Research (AIMR) is the governing body for the CFA exam and designation.**

**The mergers and acquisitions departments of investment banks provide consulting services to companies in the process of merging or acquiring other companies or organizations. Organizations wishing to acquire, dispose of, or invest in real estate will deal with the real estate division of an investment bank. Equity research and consulting for private clients are also frequently chosen as career paths for MBAs with focus in investment banking.**

### **Investment Sales Associates and Traders**

While MBA skills and knowledge are not explicitly required in this field, they do come in as very valuable in enabling a person to understand the economic principles that drive the financial markets. Investment traders and sales associates assist corporate or institutional investors in the purchase and sale of securities such as stocks and bonds. The sales associate makes recommendations and helps with the analysis, while the trader actually executes the orders for the client.

### **Credit Managers and Specialists**

The Credit manager is in charge of managing the credit a company may sanction to its clients or others. Credit managers formulate criteria for rating risk and credit, determine the maximum amount of credit to offer, and supervise past-due account collections.

**CAREERS:**

**Marketing Careers**

There are an enormous amount of career opportunities and options for people with MBA in Marketing. The most common are corporate positions such as Marketing manager, Brand manager, Market research analyst, and New product manager. Persons with strong financial skills could seek a career in strategic or market related planning. Additional corporate positions such as sales manager, advertising manager, PR (public relations) director, and marketing communications manager are also common.

In marketing or advertising agencies, numerous opportunities exist in advertising, direct marketing, and communications specialization. Consulting firms also hire marketing MBAs as new market developers, strategists, and customer segmentation specialists.

Product management careers as well as brand management careers typically require that a candidate have an MBA, even at the entry level. However, some companies that focus intensively on sales, promote these positions internally from highly successful sales representatives.

### **Product and Brand Managers**

The product manager is entirely responsible for the profitability and market growth of a product line. The product manager could be considered the CEO of a particular product. They typically coordinate and oversee a number of diverse divisions of a corporation to ensure the efficient and timely flow of a product to market. While some product managers have international responsibilities, most product management positions focus on product and market development domestically. Product managers will often see promotion to director or manager of a group of products or even to the position of VP of marketing.

### **New Product Development Specialists**

Some companies have a position specifically targeted to managing new or developing product lines. The new product specialist is skilled at launching and marketing initial implementations of a product or marketing plan before giving the project to a product manager for ongoing maintenance.

### **Marketing Managers**

The marketing manager's responsibilities are similar to those of the product manager, but are focused on servicing and managing an ongoing relationship with existing customers. The marketing manager utilizes skills in international marketing, customer satisfaction and retention, market strategy, and emerging technologies. This position can be highly demanding and require intensive knowledge of market research and customer management.
