

**ANNAMALAI UNIVERSITY**  
**FACULTY OF ENGINEERING AND TECHNOLOGY**  
**DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING**

**TPC TRAINING ACTIVITES FOR THE ACADEMIC YEAR 2022 - 2023**

The Department of Computer Science and Engineering along with the University FEAT Training and Placement Cell works dedicatedly to ensure that eligible students of the department are provided with the right opportunities in the IT sector to highlight their skills and talent.

The department also has faculty members who serve as the placement coordinator. The primary job of the placement coordinator includes acting as a point of contact between the Training and Placement Cell and the students of the department and also mentoring the students and providing them with guidance in choosing the right path of career.

The department plays a vital role in locating job opportunities for the students who are all passing out from the department by keeping in touch with top-notch companies. The department operates round the year to facilitate interactions between companies and budding graduates.

The illustrious Alumni of the institution have extended their fullest support in the placement related activities and roped in many companies for the campus drive besides conducting Pre-Placement Training Programmes at frequent intervals to improve the students' skillset.

In addition to the training and placement, guidance on entrepreneurship and awareness programmes relating to competitive exams and Bank Exams are also being regularly conducted. The students are also encouraged to register for SWAYAM online courses and Value-Added Courses to strengthen their career opportunities.

From this academic year 2022-2023, an hour per week on Placement Training has been made mandatory for the third year and fourth year students and included in the class time-table. Regular training sessions are being held not only during the Placement hours but also during free time and after-hours.

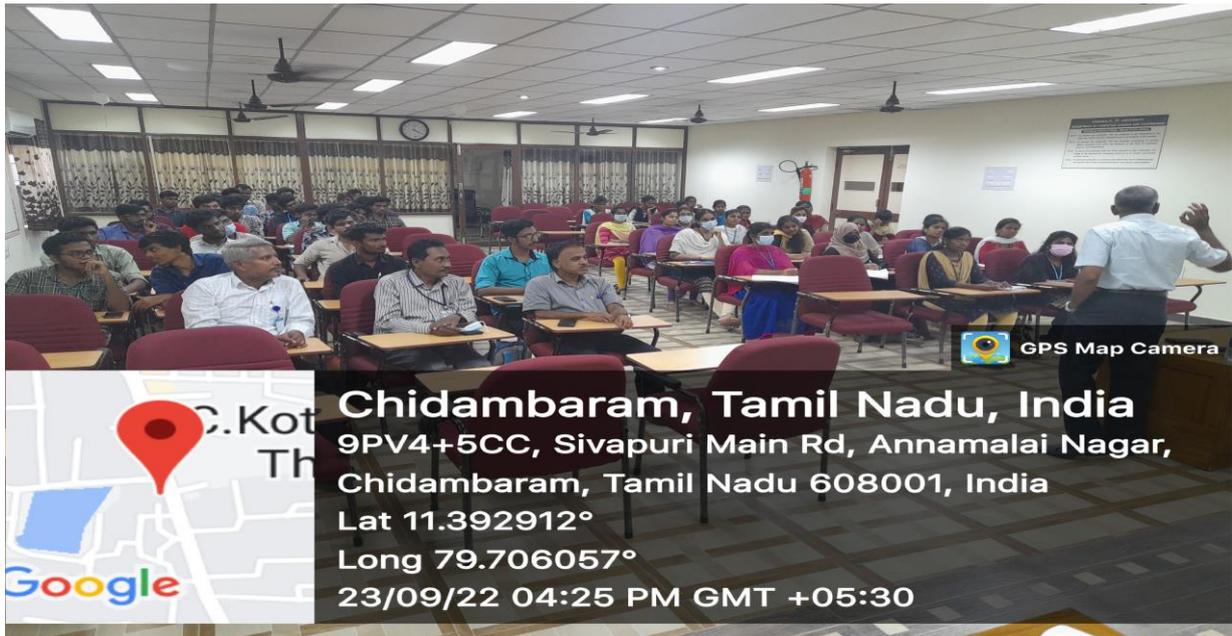

Importance of Skill-set in addition to knowledge for career development is being repeatedly emphasized and awareness on up-skilling programmes is being highlighted to the students of all years.
