SHODHSHUDDHI: ANTI-PLAGIARISM INITIATIVE

The Ministry of Education, Government of India, launched the "ShodhShuddhi" program on 1st September, 2019, to provide Plagiarism Detection Software (PDS) to universities and institutions across the country. This initiative aims to promote academic integrity by offering advanced tools for detecting and addressing plagiarism in scholarly work.

Under the ShodhShuddhi initiative, over 1,100 institutions have been identified to receive access to the 'DrillBit-Extreme Plagiarism Detection Software.' This service was made available to Higher Education Institutions (HEIs) starting 1st November, 2023.

As a member of this program, Annamalai University utilizes the DrillBit-Extreme software through the Dr.C.P.Ramaswami Aiyar Library to conduct anti-plagiarism checks on research scholars' theses. This process ensures that the academic work produced by our researchers upholds the highest standards of originality and integrity.

SHODHGANGA: A RESERVOIR OF INDIAN THESES

Theses and dissertations are valuable and unique sources of research, often containing information not published elsewhere. However, they are frequently underutilized and can lead to unnecessary duplication and repetition in research.

To address this issue, the UGC Notification (Minimum Standards & Procedure for Award of Ph.D. Degree, Regulation, 2009, with amendments on 5th May, 2016) mandates that researchers submit electronic versions of their theses and dissertations. This regulation aims to facilitate global open access to Indian academic work through centrally maintained digital repositories.

The Dr.C.P.Ramaswami Aiyar Library at Annamalai University plays a crucial role in this process by uploading theses to "Shodhganga," the digital repository established and maintained by the INFLIBNET Centre. The term "Shodhganga" combines "Shodh," meaning research and discovery in Sanskrit, with "Ganga," the sacred and longest river in the Indian subcontinent, symbolizing a vast reservoir of Indian intellectual output.

As of now, 3,407 theses from our library have been uploaded to Shodhganga, significantly enhancing the visibility and accessibility of academic research and reducing issues of duplication and poor research quality.

OPAC: ONLINE PUBLIC ACCESS CATALOGUE

The **Online Public Access Catalogue (OPAC)** marks a significant enhancement in the library's service delivery, offering swift and efficient access to the entire collection. Through OPAC, users can easily locate books, journals, periodicals, back volumes, palm-leaf manuscripts, historical coins, and other resources by searching with keywords related to the title, author, or subject.

Each catalogue entry provides comprehensive bibliographic details, including the **title, author, publisher, collation, year of publication, and price**, along with the precise location of the item within the library — **section name, pillar number, rack number, and book serial number**. This structured system enables users to locate and access materials quickly, without the need for manual shelf searches.

In addition, OPAC offers listings of books available across various university departments and includes up-to-date records for the current academic year. By streamlining resource discovery, OPAC significantly improves the efficiency of library operations and supports users in effectively locating and utilizing the library's vast resources.

UGC INFONET SERVICE

The Internet has become an indispensable component of academic institutions, greatly enhancing their information access and communication capabilities. With special assistance from the University Grants Commission (UGC), Annamalai University benefits from the UGC-Infonet Programme, which provides a 1 Gbps (1:1) BSNL leased-line connectivity. This high-speed, dedicated connection ensures uninterrupted access to a vast array of academic resources and databases, facilitated through INFLIBNET. By leveraging this infrastructure, the library supports advanced research, collaborative learning, and seamless access to digital information for faculty, researchers, and students.

ONE NATION ONE SUBSCRIPTION (ONOS) AT ANNAMALAI UNIVERSITY

The **One Nation One Subscription (ONOS)** is a flagship initiative of the Government of India designed to provide equitable access to high-quality research literature for all citizens. Under this program, the Government negotiates with leading global publishers to secure a **single, nationwide subscription** to scholarly journals, databases, and e-resources, benefiting universities, research institutions, and independent learners across India.

E-journal Access through ONOS

- Access to **over 13,000 scholarly e-journals** from approximately **30 major international publishers**, including Elsevier, Springer Nature, Wiley, Taylor & Francis, IEEE, SAGE, BMJ, Cambridge University Press, Emerald Publishing, ACS, AMS, AAAS, Bentham Science, Oxford University Press, Annual Reviews, and others.
- Some sources report access to **up to 13,400 journals**, reflecting periodic updates and additional titles.
- The ONOS portal consolidates a vast collection of resources across disciplines, encouraging interdisciplinary research and innovation.

Annamalai University's Participation

Annamalai University, being a **government-funded higher education institution**, is fully covered under the ONOS initiative. This enables our faculty, researchers, and students to access the **entire ONOS collection** of journals and databases without bearing individual subscription costs.

Key Benefits:

- **Seamless Access:** Unrestricted availability of premium research literature across all departments and disciplines.
- **Cost Efficiency:** Eliminates duplication of subscriptions, optimising budget allocation.
- **Inclusive Knowledge Sharing:** Facilitates equitable access for the entire academic community, fostering collaboration and innovation.

Impact on Academic and Research Excellence

The ONOS initiative has significantly enhanced Annamalai University's academic and research capabilities by:

- Enabling faculty and scholars to access the latest global research for high-quality publications.
- Supporting students with up-to-date learning resources and reference materials.
- Strengthening research output and visibility at national and international levels.
- Contributing to the national vision of **democratising knowledge** under the *Digital India* and *Atmanirbhar Bharat* missions.

In addition to the UGC-Infonet resources, we subscribe to additional databases and e-journals including E-ShodhSindhu, Indiastat, and others. These subscriptions provide comprehensive access to journals, articles, and databases across diverse disciplines.

Moreover, our subscribed journals can be accessed remotely via the My Library on Finger Tips (MYLOFT) app, offering convenient access to scholarly resources from anywhere.

ID CARD PRINTING:

The University Library has started printing student ID cards in-house. Each ID card is equipped with a 1KB memory chip, allowing for (Book Issue / Return) transactions at the University Library using RFID technology. This new single card system simplifies book transactions for students across the university campus.

SCROLL BOARD UPDATE:

The University Library has introduced Digital Display systems to keep students and users informed about various updates. These displays provide information on new arrivals, university programs, slogans, celebration days, and the latest publication metrics. Users are kept aware of current events and developments through these Digital Display Systems.

BRAILLE SOFTWARE:

The University Library has established a dedicated section for visually impaired students, funded by RUSA. This section is equipped with a system that includes a Braille OCR scanner, speakers, and specialized software. The setup allows students to listen to the written content of books, as the OCR scanner converts text to speech, which is then played through the speakers. Additionally, the system features a multilingual translator, enabling students to hear the content in their vernacular language.

Policy of prohibiting sexual harassment

One of the core objectives of Annamalai University (hereinafter referred to as “University”) is to ensure gender equality and gender justice through the University interventions and practices. In keeping with this principle, it is important to ensure a climate free from discrimination and harassment, with a particular focus on prevention of sexual harassment. Sexual harassment of individuals occurring in the place of work or study or in other settings in which they may find themselves in connection with their association with the University is unlawful and will not be tolerated by the University. Further, any retaliation against an individual who has complained about sexual harassment complaint is similarly unacceptable. To achieve this goal, conduct that is described as “Sexual harassment” in this policy will not be tolerated and a procedure is provided by which inappropriate conduct will be dealt with, if encountered among employees / students.

The University will also take all the appropriate steps necessary to protect individuals from retaliation. Such steps include:

- Action to stop retaliatory behavior
- Providing required security measures
- Counseling help to complainant and accused.

The University takes allegations of sexual harassment seriously, and will respond promptly to complaints of sexual harassment and where it is determined that such inappropriate conduct has occurred, prompt and appropriate corrective action as is necessary, including disciplinary action, will be taken.

While this policy sets forth the goal of the University of promoting a study or workplace that is free of sexual harassment, the policy is not designed or intended to limit the authority of the University to discipline or take remedial action for conduct which the University deems unacceptable, regardless of whether that conduct satisfies the definition of sexual harassment. The committee organizes an awareness drive among the staff and students of the University to impart knowledge on sexual harassment at work place, the legal aspects and rights. The drive also aims at throwing light on sexual hygiene and effects of nutrition on adolescence.

Annamalai Digital Information Centre (ADIC)

Dr. T.S. Subashini, Director, ADIC

ADIC has created two web applications viz: **Office and GMAR**

Office:

A highly secured web portal “aoffice” has been created for online collection of Question paper from all the faculties of Annamalai University for on-campus end semester examinations. This portal helps the Controller of Examinations to collect questions papers digitally thereby reducing paper and eases the collection of question paper within the deadline.

Security has been introduced which prevents any sort of leaks and breaches. And most of the problems in manual collection of question papers have been addressed by this automation. The staff as well as the controller of examinations is benefitted by this portal.

Online Help Desk:

Grievances Monitoring & Redress Cell (GMAR) is an online Help desk which has been exclusively created in our university web site to handle all grievances from students, staff and alumnus of Annamalai University. Based on the nature and type of query, notification will be sent to the respective Heads of Department/ Sections. This helps the concerned head to take action immediately and the grieved person can also see the action taken online. This online help desk minimizes the effort and time needed to reach the authority concerned.

eOffice:

ADIC is working on the implementation of eOffice in our University. Staff was deputed to work at TNEGA Chennai, and we have already completed eight stages out of the ten stages. The stages:

Stage 9: Email Id creation and

Stage 10: Training for file handling staffs

are yet to be completed.

We have submitted all the requisite documents and request letters for the issuance of an official email ID. Once official E-mail Ids are issued the training to all file handling staff will be done in coordination with TNEGA, Chennai which will complete all stages of eOffice implementation in Annamalai University.
