The Division maintains a model livestock farm.

The dairy farm comprises of cross breeds of Holstein Freisian, Jersey and Red Dane. The milk produced from the dairy unit is routinely supplied to the staff members residing in the staff quarters. Annual auction sale of calves, heifers, bulls and cows provide hybrid germplasm to the local farmers.

A fodder unit is also maintained by the Division with Kambu-Napier grass for feeding the Dairy cows.

The Goat unit consists of pure and Cross breeds of Tellicherry, Jamnapari, Kodi Adu and Kanni Adu in addition to Desi breeds. The goats are extensively reared in the pasture lands and sold for meat as well as for rearing purpose to the local farmers.

The Broiler unit is maintained in batches for students' practical purposes. Once the birds attain market weight, they are sold to the staff members of the University.

The Turkey unit provides both pullet and hatching eggs in addition to meat.

The Division of Animal Husbandry is equipped with a Veterinary Hospital for the treatment of farm animals. It also extends its treatment to the animals belonging to the Sewage farm. The Division participates in Farmer's day celebrations every year and renders extension services to the farmers by organising live exhibits of bovine, caprine and turkey species and by displaying flash cards, flip boards and charts showing the significance of improved scientific techniques in livestock rearing. Milk products such as Paneer, Khoa and flavoured milk are sold to the farmers in order to motivate them in the preparation of dairy products.

Organising Veterinary camps, farmer-scientist meet and group discussions at the village level are some of the activities of this Division during Students' Rural Agricultural Work Experience (RAWE) Programme.

Projects proposed to various funding agencies include:

- Ethno Veterinary Practices for sustainable livestock development in coastal Tamil Nadu.

A Poster titled “Minimal Intervention” Dentistry – The ART was presented under the guidance of Prof.Dr.V.Krishnan,M.D.S., in “Dentocon – 2003” – Students convention held at Coimbatore in the month of September, 2003. Poster presented by J.Nithya Theresa, I.Paavai & S.Archana, III B.D.S.

The Division of Preventive and Community Dentistry of Rajah Muthiah Dental College & Hospital, Annamalai University is functioning for the betterment of the society in providing Dental health care through various activities.

In the primary health care centres at Puduchathiram and Orathur, our team of dentist visit them on specific days every week and provide necessary treatments. Complex cases are refered to R.M.D.C.H for further management. We also visit schools for screening and treatment of school children. The dental health condition is recorded in a proforma for future reference, analysis and treatment planning.

With the help of the Public organizations, Camps are conducted in the interior towns and villages around Chidambaram for the benefit of the public who do not have the facility to get quality dental care at their door steps.

In all these camps, our team of Dentists with the help of visual aids, lectures, demonstrations teach the public regarding the basic oral hygiene practices and emphasis on the periodic visit to the dental hospital for maintenance of oral health.

With the support from Colgate Palmolive private limited and in association with IDA South Arcot Branch, Dental Health Education for school children is conducted every year by providing lectures, demonstrations and free distribution of tooth paste and brush with booklet containing all important information regarding dental diseases and their prevention . We also run a blood donors club, where donors donate blood in times of need

The students of R.M.D.C.H attended the Students Convention Programme at Coimbatore on 27th and 28th September 2003 and won many prizes for Sports events.
