## Policy of prohibiting sexual harassment

One of the core objectives of Annamalai University (hereinafter referred to as "University") is to ensure gender equality and gender justice through the University interventions and practices. In keeping with this principle, it is important to ensure a climate free from discrimination and harassment, with a particular focus on prevention of sexual harassment. Sexual harassment of individuals occurring in the place of work or study or in other settings in which they may find themselves in connection with their association with the University is unlawful and will not be tolerated by the University. Further, any retaliation against an individual who has complained about sexual harassment complaint is similarly unacceptable. To achieve this goal, conduct that is described as "Sexual Harassment" in this policy will not be tolerated and a procedure is provided by which inappropriate conduct will be dealt with, if encountered among employees / students.

The University will also take all the appropriate steps necessary to protect individuals from retaliation. Such steps include:

- Action to stop retaliatory behavior
- Providing required security measures
- Counseling help to complainant and accused.

The University takes allegations of sexual harassment seriously, and will respond promptly to complaints of sexual harassment and where it is determined that such inappropriate conduct has occurred, prompt and appropriate corrective action as is necessary, including disciplinary action, will be taken.

While this policy sets forth the goal of the University of promoting a study or workplace that is free of sexual harassment, the policy is not designed or intended to limit the authority of the University to discipline or take remedial action for conduct which the University deems unacceptable, regardless of whether that conduct satisfies the definition of sexual harassment. The committee organises an awareness drive among the staff and students of the University to impart knowledge on sexual harassment at work place, the legal aspects and rights. The drive also aims at throwing light on sexual hygiene and effects of nutrition on adolescence.

Dr. V. Nehru Kumar, Prof. of Civil Engg., & Director, Centre for Environment, Health & Safety, A.U.

Centre for Environment, Health & Safety (CEHS) is an FIA Organization under the scheme of National Accreditation Board for Education & Training (NABET) with Quality Council of India and attained this unique status of the only Institution, acquired the NABET accreditation in Tamilnadu. CEHS has applied for the renewal of accreditation which is due since 2017. CEHS applied for SIX Industrial sectors with in house experts for two EIA Coordinators and ten Functional Area Experts (FAEs). The office assessment was conducted by NABET during 14-17, October, 2019 by the Experts from QCI in the University. Though we still have to obtain the final certification from NABET, we have been already given an approval letter for Six Industrial Sectors, viz.,

1. Mining of Minerals 2. River Valley Projects

3.Industrial Estates 4.Common Hazardous Waste Management Facility

5. Biomedical Waste Management Facility

6.Ports & Harbors

CEHS is currently serving premier institutions like IIT-M, State Departments like PWD, and infrastructure giants like Kargwal, Ports like VOC Port, in resolving challenging environmental issues, Impact Assessment Studies and devising Environmental Management strategies.

CEHS is presently doing Environmental Consultancy for World Bank (WB) funded project for Tawi River Flood Management, at Jammu & Kashmir, in collaboration with Aquologus, Portugal. Other prestigious EIA work is for Capacity Expansion of Cuddalore Port as all-weather Port for Tamilnadu Maritime Board, Government of Tamilnadu.

EIA studies for Passenger Jetty Expansion and Steel Walkway to connect Swami Vivekananda Rock and Ayyan Thiruvalluvar Rock at Kanyakumari were other notable ongoing works for Tamilnadu Maritime Board, Government of Tamilnadu.

EIA studies were undertaken for two works viz., Shoreline Protection Structures for Public Works Department, Government of Tamilnadu at Poothurai Coastline, Nagerkoil and Marine Sports Complex for Sports Development Authority of Development, Government of Tamilnadu at Marina, Chennai.

CEHS applied and got listed in the Consultant Management System (CMS) of Asian Development Bank (ADB). CEHS is planned to forge association with international consultants like DHI, Denmark on getting the final Accreditation Certificate from QCI which is due.

### **CENTRE FOR CELL BIOLOGY & DRUG DISCOVERY**

Dr. V. Parthasarathy, Prof. of Pharmacy & Director, Centre for Cell Biology & Drug Discovery, A.U.

Centre for Cell Biology and Drug Discovery was established with a view to explore the knowledge of cell biology, tissue culture, molecular biology, immunology and recombinant technology to carry out an advanced research on drug development activities concerning cancer, cardiovascular diseases, diabetes etc.

During March, 2019 a collaborative research has been initiated between Centre for Cell Biology and Drug Discovery, Department of Pharmacy and NpMass MEMS Design Centre, Department of Instrumentation Engineering. The study was aimed to evaluate the biocompatibility of "Organic Nano-material Based Nano-photodiode Array" (NPDA) for sub-retinal implant. The biocompatibility of the implant had been successfully tested at the tissue culture facility using retinal cell lines and found that the device is non toxic to treat eye blindness in mere future. A research article has been published in a peer reviewed journal is given below.

Moorthy Vijay Meyappan, Varadarajan Parthasarathy and Joseph Danial (2020) Bio-interface behavior of Graphene and semiconducting SWCNT:C60 blend based nanophotodiode for subretinal implant. Biosurface and Biotribology (InPress). Soon the technology will be patented.

To attract the research grants, a research proposal entitled "A study on micro RNA-31 and epithelial membrane protein-1 expression in normal stem cells during its co-culturing with breast cancer cells" submitted to ICMR under Grant in Aid Scheme. The study is proposed to carry out between Centre for Cell Biology and Drug Discovery and Department of Biochemistry, Rajah Muthiah Medical College and Hospitals, Annamalai University. In addition to these, a research project entitled "Design and development of novel cyclin-dependent kinase inhibitors to treat triple negative breast cancer (TNBC) submitted to Rashtriya Uchachatar Shiksha Abhiyan (RUSA) Scheme.
