Policy of prohibiting sexual harassment

One of the core objectives of Annamalai University (here in after referred to as "University") is to ensure gender equality and gender justice through the University interventions and practices. In keeping with this principle, it is important to ensure a climate free from discrimination and harassment, with a particular focus on prevention of sexual harassment. Sexual harassment of individuals occurring in the place of work or study or in other settings in which they may find themselves in connection with their association with the University is unlawful and will not be tolerated by the University. Further, any retaliation against an individual who has complained about sexual harassment complaint is similarly unacceptable. To achieve this goal, conduct that is described as "Sexual harassment" in this policy will not be tolerated and a procedure is provided by which inappropriate conduct will be dealt with, if encountered among employees / students.

The University will also take all the appropriate steps necessary to protect individuals from retaliation. Such steps include:

- Action to stop retaliatory behavior
- Providing required security measures
- Counseling help to complainant and accused.

The University takes allegations of sexual harassment seriously, and will respond promptly to complaints of sexual harassment and where it is determined that such inappropriate conduct has occurred, prompt and appropriate corrective action as is necessary, including disciplinary action, will be taken.

While this policy sets forth the goal of the University of promoting a study or workplace that is free of sexual harassment, the policy is not designed or intended to limit the authority of the University to discipline or take remedial action for conduct which the University deems unacceptable, regardless of whether that conduct satisfies the definition of sexual harassment. The committee organises an awareness drive among the staff and students of the University to impart knowledge on sexual harassment at work place, the legal aspects and rights. The drive also aims at throwing light on sexual hygiene and effects of nutrition on adolescence.
